

## TPS U-Series R2 Bullet resistant windows

Incorporating the TPS-Forster Unico Steel Framing system with certified ballistic resistant glass, these windows have been tested and approved to AS/NZS 2343:1997 for R2 protection

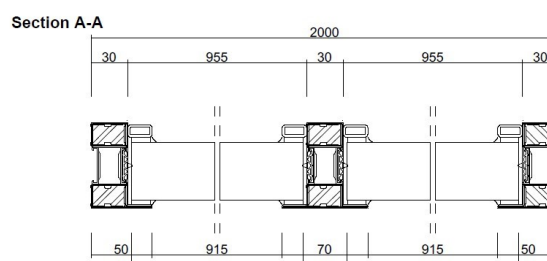

Highly suited for applications that require windows which have certified resistance against hand gun and rifle attack up to R2 rating, such as protective services buildings (police, security guards, etc), embassies, cash offices, banks, government offices, airports and other high security buildings.

### Features

- ◆ Fixed windows with glass panel size up to 2000 x 1000 for each lite.
- ◆ Fully certified to AS/NZS 2343:1997, R2 (which includes G0, G1, and G2).
- ◆ Single and multi-panel applications.
- ◆ Standard U-Series with 50mm profile and 70mm sightline.
- ◆ Slimline U-Series with 30mm profile and 50mm sightline.
- ◆ Available in powdercoat, paint, or 304 grade Stainless Steel finish.
- ◆ Easily integrated with TPS U-Series G2 rated glass bullet resistant door assemblies
- ◆ Thermally broken European designed frame system provides excellent U-values
- ◆ Very high sound reduction.
- ◆ Incorporates 45-47mm (nom) R2 rated multilaminate glass with scratch resistant internal polycarbonate lining.
